

Alternative Fueling Solutions is a Veteran-Owned small Business situated in Alexandria, Indiana.

AFS specializes in the fabrication of innovative Autogas dispensers that are currently patent-pending, and offers installation and training services with each unit sold.

The distinctiveness of these units lies in their modular design and ease of maintenance for service providers, while their elegant and straightforward design ensures user-friendliness for customers.

AFS has a production capacity of 30 units per month, which can be increased to a maximum of 60 units with a 30-day notice.

Each unit is manufactured and constructed locally. Once completed, the units are partially disassembled and packaged for nationwide shipping. **AFS** professionals are responsible for reassembly and functionality of units at their final destination.

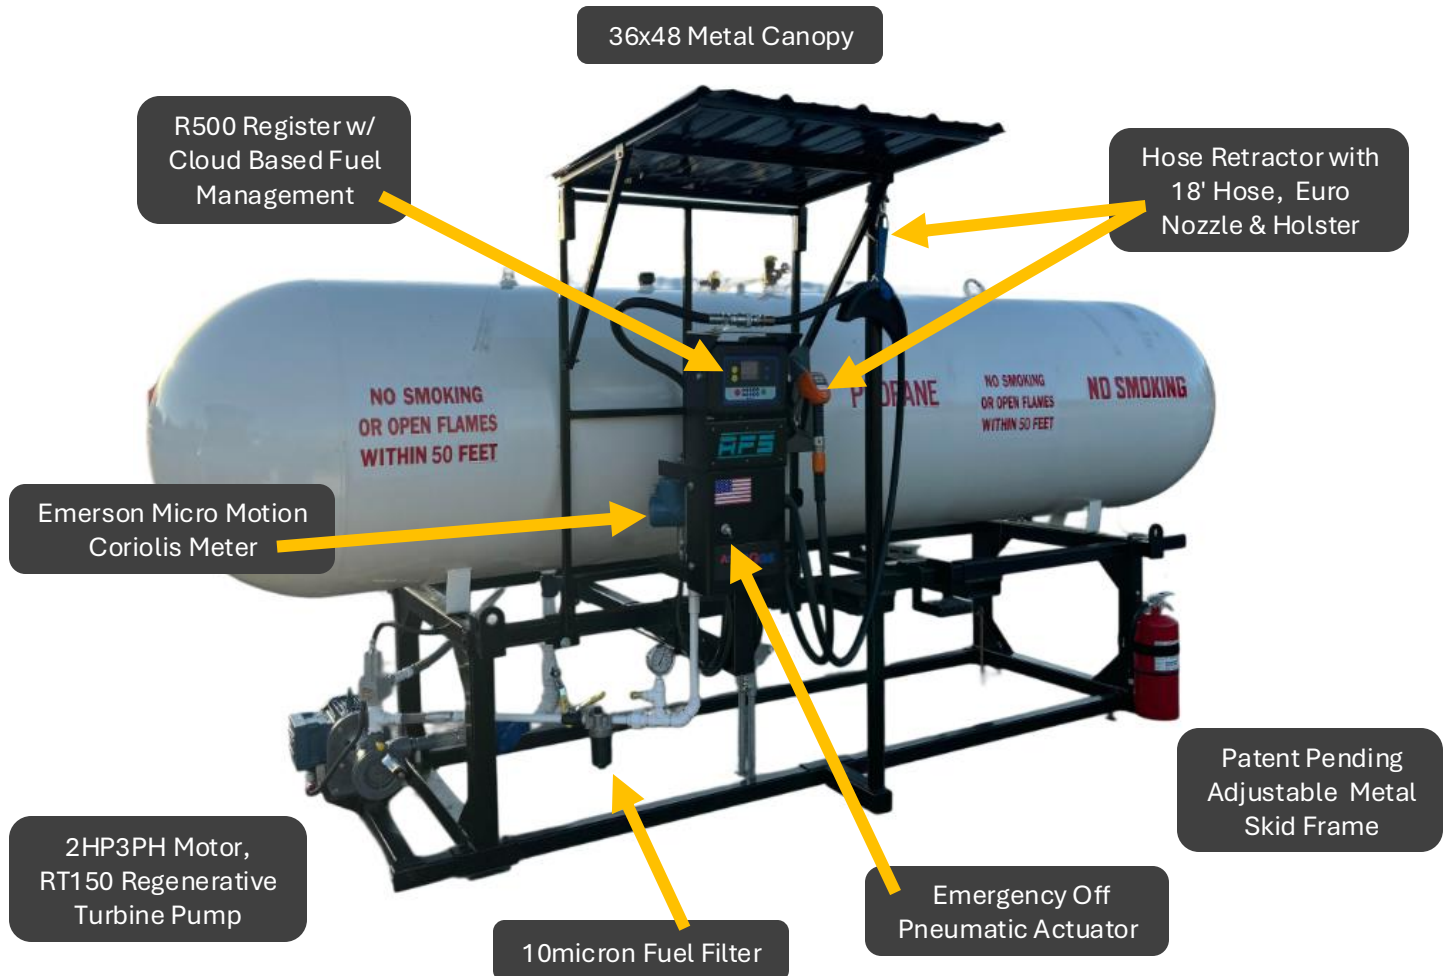

AFS provides maintenance training for service providers as well as user training for customers.

AFS is a partner of **Europump International**, a European manufacturer and global distributor of LPG, CNG and automation equipment since 1994. **AFS** dispensers feature **Europump International's** RT150 Regenerative Turbine Pumps, Bypass Valves, Fuel Filters and R500 Electronic Registers with Cloud Based Fuel Management.

AFS holds sole distribution rights for **Europump International's** line of products for the United States and Canada.

VPA_C3H8 AutoGas Fleet Fueling Dispenser Emerson Micro-Motion Meter w/ Digital Register

**PATENT
PENDING**

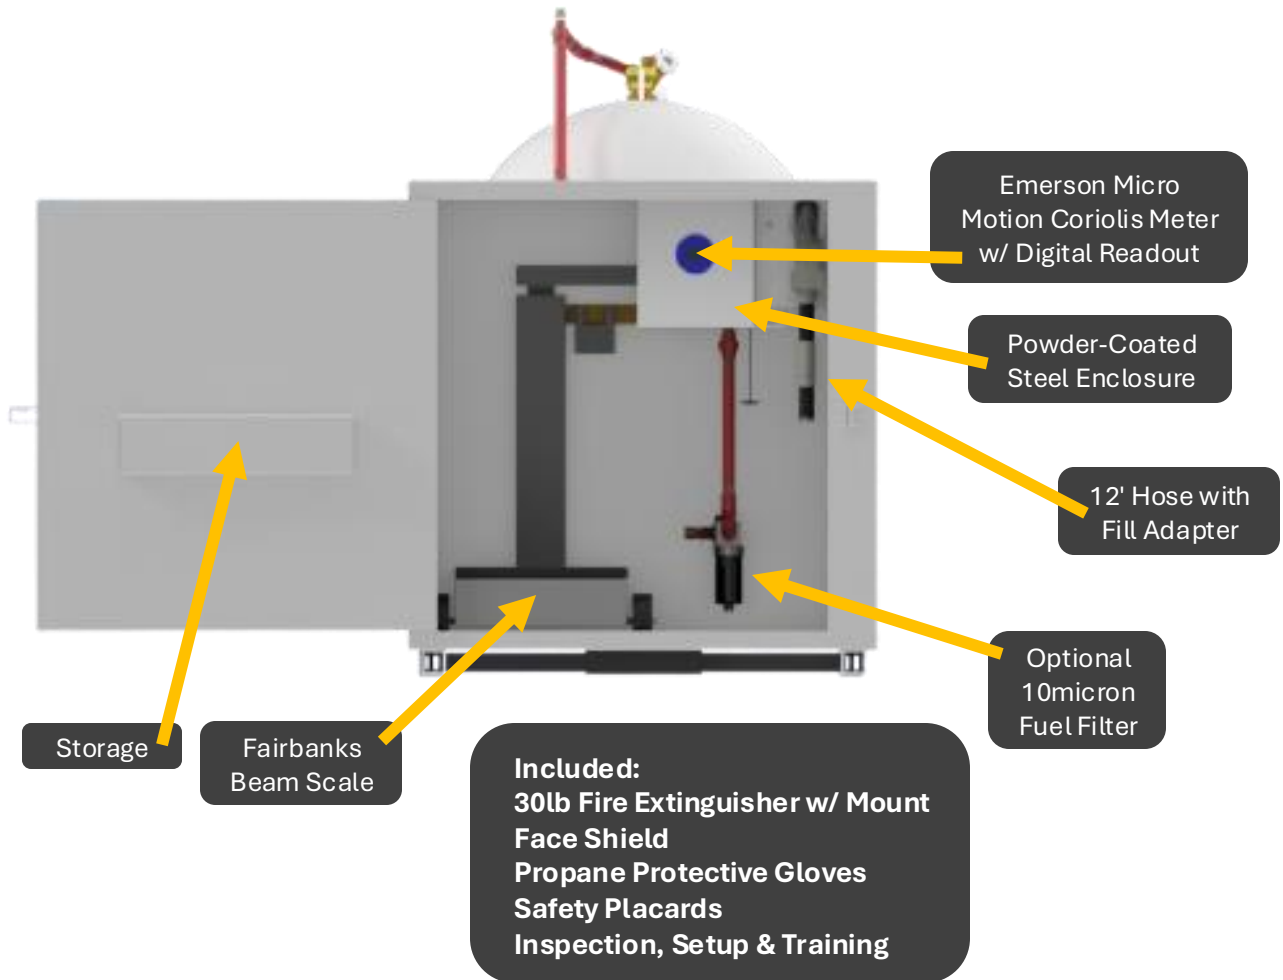

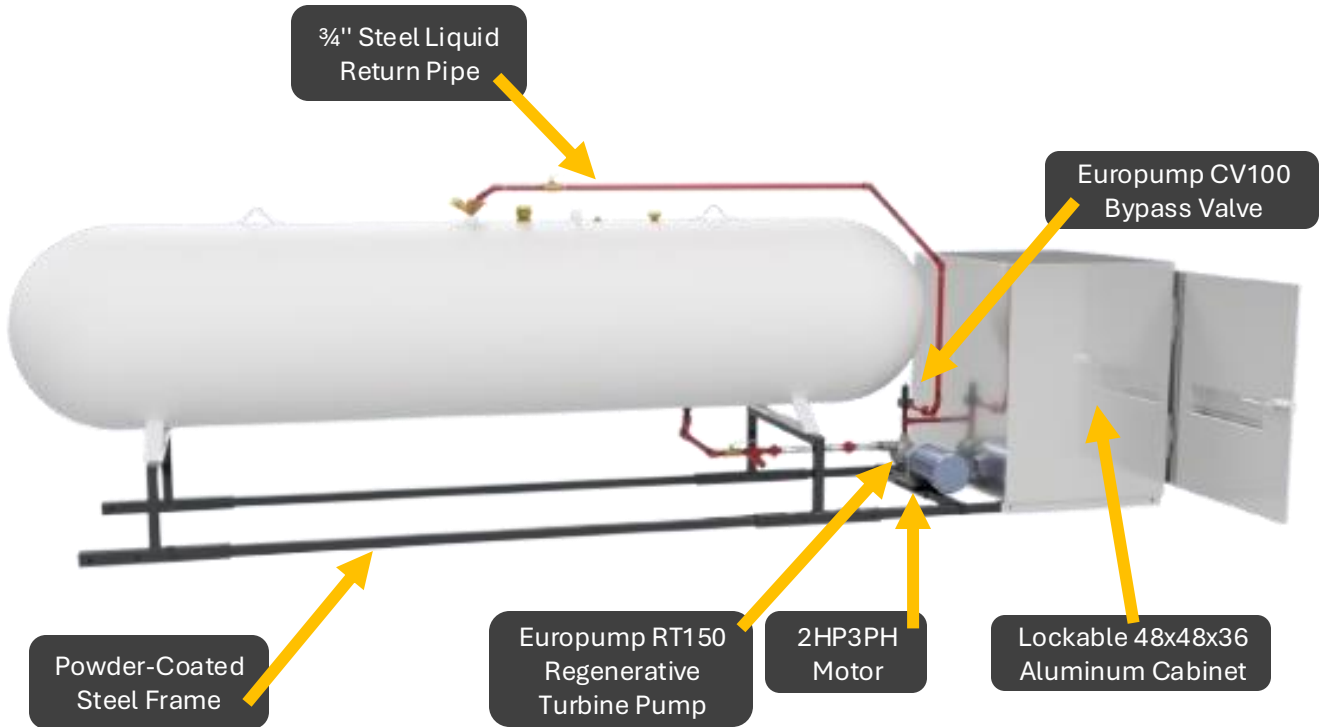

Included:
30lb Fire Extinguisher w/ Mount
Face Shield
Propane Protective Gloves
Safety Placards
Inspection, Setup & Training

Optional Equipment & Service:
Plug N' Play Electrical Box with Built-In Frequency Drive
Regulation Standard Steel Bollards, Painted Yellow
Emplacement & Electrical Services

***Complete plumbing with all fittings, strainer, valves & gauges. No Vapor Return Line Needed**

VCF_C3H8 Cylinder Fill Dispensers

*Emerson Micro-Motion Meter w/ Digital Readout

***Complete plumbing with all fittings, strainer, valves & gauges. No Vapor Return Line Needed**
